## POSITIONING & MANAGEMENT

A true workhorse hybrid, it has lots of yield potential! LH 4692 RR handles all soil types. It also has very good ear flex, good emergence and early vigor. It will go west into lower yield environments. With very good tolerance to drought and Goss's Wilt, its a great choice in zone and south.

Highly Productive & Irrigated Fields	High Population Recommended
Moderately Productive/Average Fields	Medium Population Recommended
Less Productive/Stressed Fields	Low Population Recommended
